Salmon Feast

Bookmarks and Buttons

The crafts project for this title consists of 6 buttons and 2 two-sided bookmarks. You have two options:

- 1) Use the B&W masters and color the objects before cutting them out;
- 2) Use the already colored buttons and bookmarks masters.

Coloring the B&W masters

- 1) On the computer

Import the desired master into your favorite drawing program and color the Bookmarks and the Buttons there.

- 2) Manually

Print out the masters as B&W on a heavier paper. Color manually with pencils, watercolor, crayons.

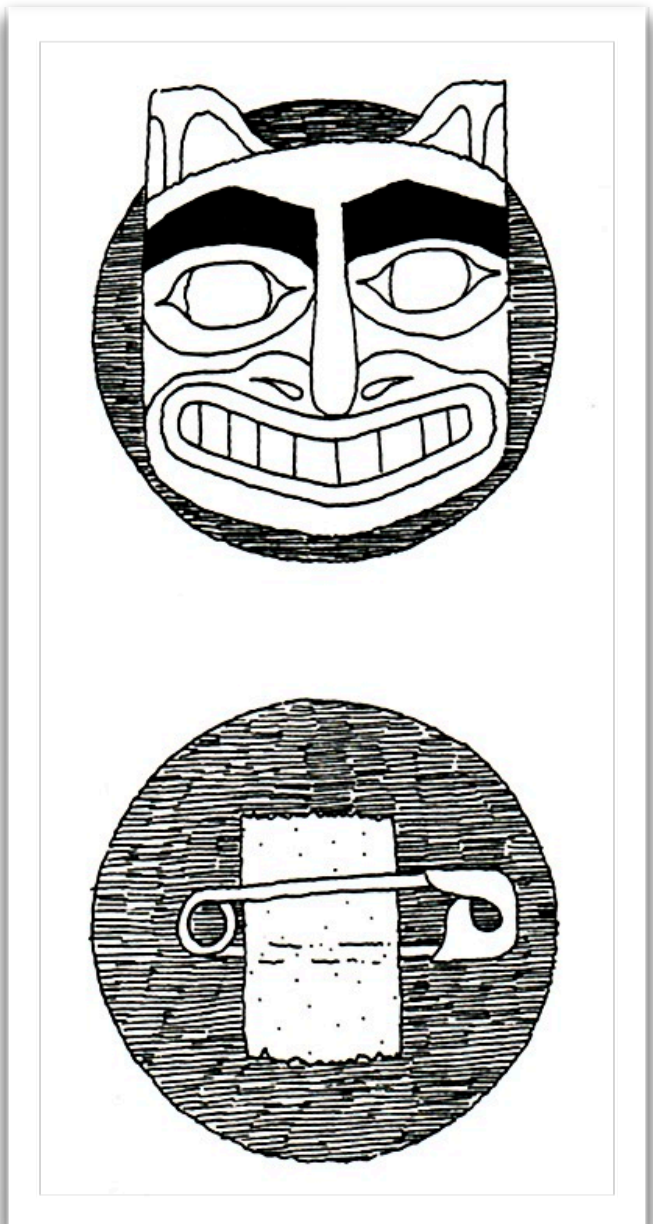

Assembly of the Buttons

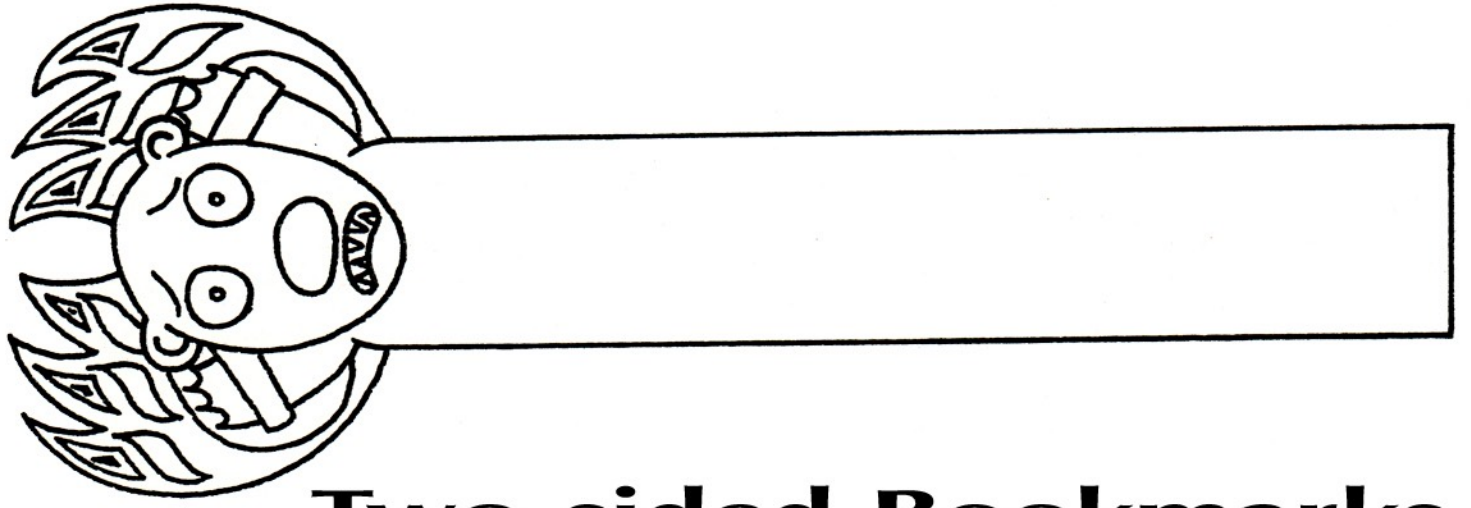

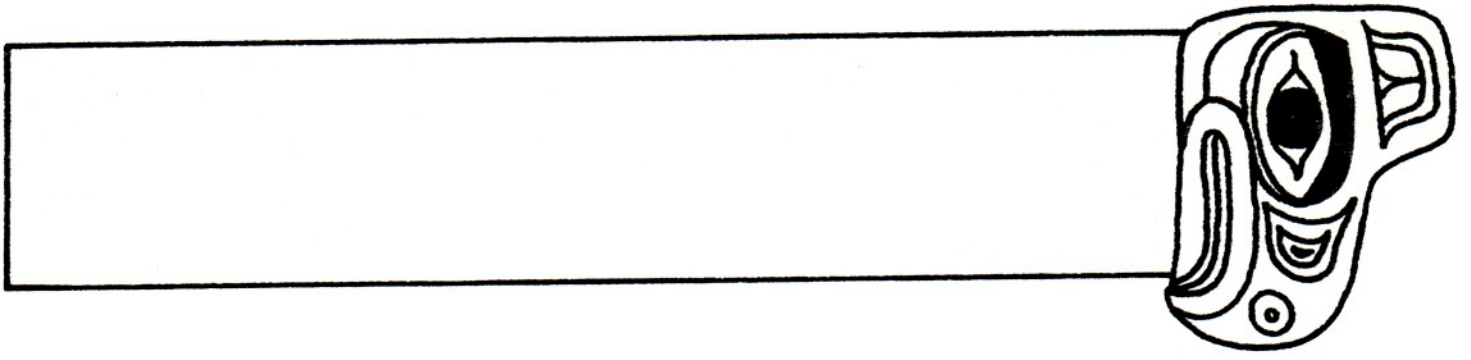

There are many ways you could produce the buttons:

- a) Mount the cut-out images onto a sturdy crafts paper and attach a pin from the reverse side,
- b) Having your office supply centre print the buttons onto the metal or plastic pre-made buttons.

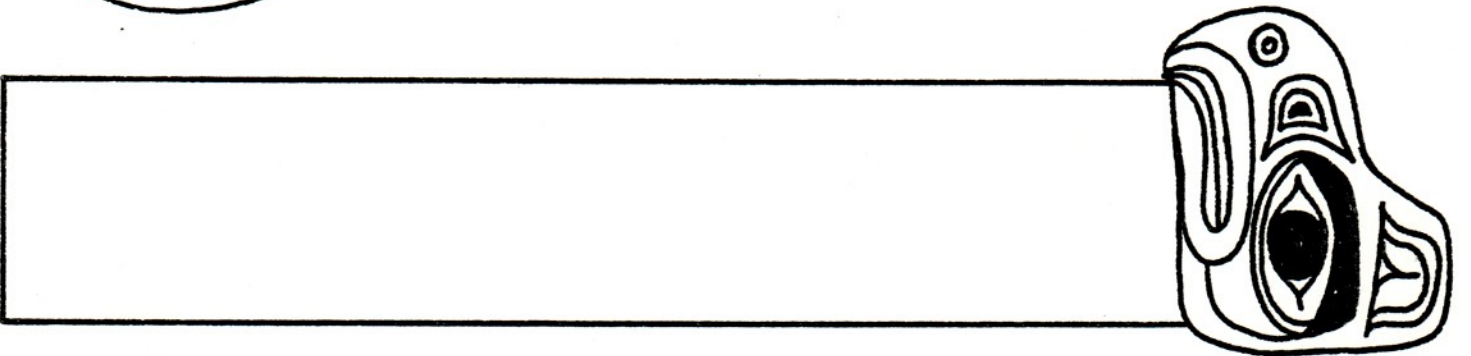

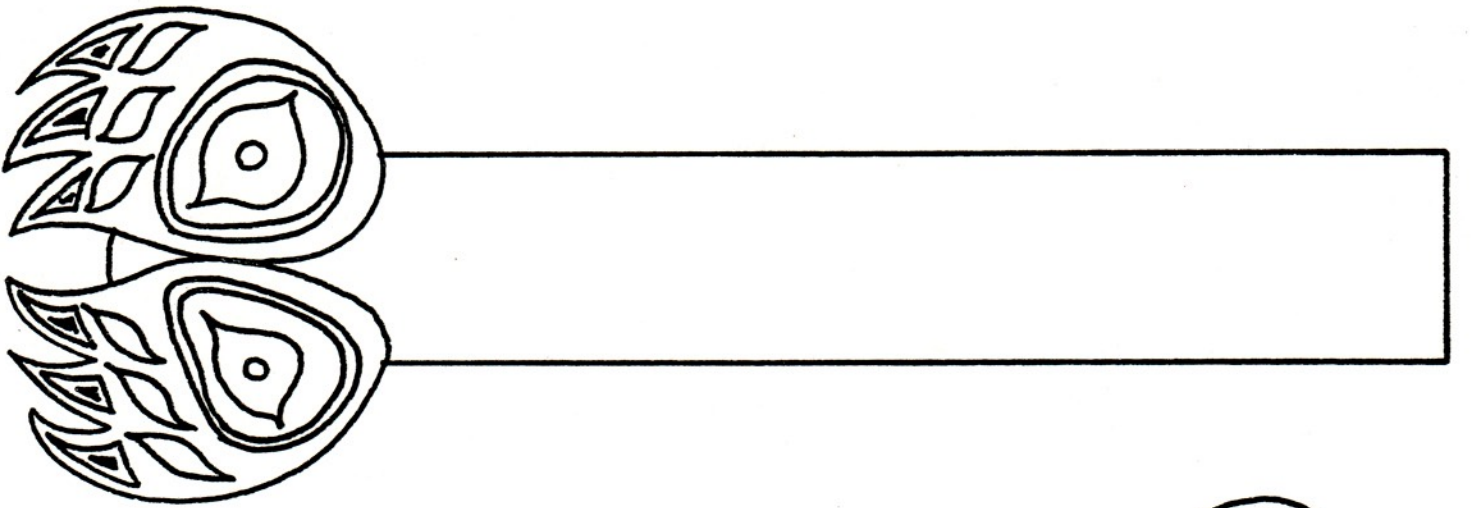

Assembly of the Bookmarks

- a) Cut out the Bookmarks, leaving a little space on the outside.
- b) Glue the Bookmarks together. You can also glue crafts paper in-between the the bookmark layers.
- c) Once dry, make a final trim to the Bookmarks.
